## SCHOOL DEVELOPMENT PLAN 2014

### EXECUTIVE SUMMARY

Guided and supported by the management of Tusaidiane Uganda School Management developed this School Development Plan in close cooperation with the Board of Directors of St Francis Little Birds Community Development Association, the owner of the school. The land title for the compound is secured.

The school is not yet registered at the Ministry of Education & Sports (MOES) and/or the Districts Education Office (DEO). The reason is that so far not all registration requirements could be met. Meanwhile many of them can be met or will be met in due course of time by implementation of the measures in this plan for 2014/2015.

The construction measures for 2014/15 (UGX 33 million or € 10.000) concern:

- The completion of class room 7 for the primary section,
- The renovation of the existing toilets (including bathing area) for girls, and
- The construction of a complete new toilet/bathing block for boys.

In addition, implementation of a number of measures for 2014/15 in view of furniture and scholastic materials (€ 2.500) are highly desirable in view of improving the quality of education.

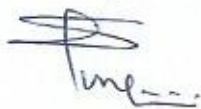

School Management has submitted and discussed this School Development Plan to the Board of Directors of St Francis Little Birds Community Development Association.

After thorough discussions and alterations the Board has accepted this Plan as the basis for registration of the school at MOES and the DEO. The application for registration shall be handed in not later than September 2014.

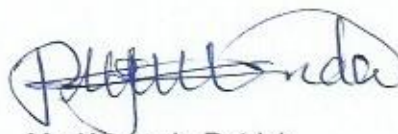

The Plan will also serve as the basis for fundraising and annual requests for funding to the donors in Germany and the Netherlands.

The Board is of the opinion that the Board cannot expect commitments from donors for more than one (1) year. Therefore, the Board will annually report about progress in implementation, and will – based on such progress- request for further support based on performance on the ground.

## 1. Introduction

The name of the school is St. Francis Little Birds Nursery & Primary School (in short SFLB-NPS).

### Location

- Village                      Mannya
- Parish                        Kawunguli
- Sub-county                Kifamba
- County                      Kakuuto
- District                     Rakai

Branch off to the right in Ssanje Trading Centre on the highway from Masaka to the Tanzanian border, some 20 kms after Kyotera. From Ssanje it is 9 kms to the school.

### Ownership and Management

The school is owned and supervised by St. Francis Little Birds Community Development Association (in short SFLB-CDA). This CDA is in the process of registration.

## 2. History

The school started in 2000 on the initiative of some members of the Mannya community, viz.

- Mr. Kafero Feridnand,
- Mr. Baleke Charles,
- The late Mr. Wasswa Shwamadu, and
- Ms. Nabacwa Prossy

Led by Mr. Kafero this group sat down and looked into the many problems that were hindering their community, in particular the young generation. Some of these were as follows;

- HIV/AIDS and other diseases;
- Famine;
- Malnutrition;
- Wars;
- Drought;
- High level illiteracy;
- Low household incomes.

The resulting challenges were many and many people lost their lives.

The consequence: a large number of orphans and needy children in the area to care for.

To address this situation the initiators resolved to start a school to cater for orphans and vulnerable children (OVCs) in the age bracket of 3-16 years in the Mannya community.

Originally, there were only 3 teachers in the school, who were not paid. These include Nabacwa Prossy (one of the founders), Nanyando Tendo Grace and Namusisi, who left the school. All the teaching was under the guidance of Mr. Kafero Ferdinand, the Director and Founder of the school.

---

From 2000 to 2007 there was no fee payment by parents. Operating expenses were covered by the little money from donations from Germany /Marburg, fundraising in the community and small agriculture activities.

In 2007 Mr. Godfrey Mutaawe was appointed as the Headteacher and by then the number of teachers had increased to 6.

From 2007 to 2010 the operating expenses situation remained more or less the same. In 2008 the Mirembe Foundation from the Netherlands donated funds for buying furniture. More pupils came increasing the number to 310 in 2010. The number of teachers rose from 6 to 12.

In 2010 the School Management Committee (SMC) was formed. The SMC decided to introduce some fee payments by parents of the non-orphans for covering the rising school expenses. There were 190 “non-paying” orphan pupils and 120 “pupils from “paying parents”. The “paying parents” started to pay 25.000. After all monthly expenses were paid the balance was used for paying teachers’ salaries. There was no bank account. All money was kept at the school.

When the school performance improved the number of pupils rose to 402 in 2013, of which 182 were orphans and 220 others, who were paying 30.000 shillings on average as school fees.

In 2013 a bank account was opened at Mannya SACCO in the name of St. Francis Little Birds Primary School with the account number 0271. There are two signatories, Mr. Kafero Ferdinand, Chairman Board CDA and Mr. Mutaawe Godfrey, the Headmaster.

### 3. Vision, Mission and Objectives

<u>Vision</u>	To create a better way of living for orphans and needy children.
<u>Mission</u>	To raise well-disciplined, learned, healthy and morally developed children.
<u>Objectives</u>	<ul style="list-style-type: none"><li>a) To fight against illiteracy;</li><li>b) To fight against malnutrition;</li><li>c) To assist OVCs to achieve quality education;</li><li>d) To assist children to acquire vocational skills;</li><li>e) To provide guidance and counselling to OVCs and other children;<ul style="list-style-type: none"><li>i. To educate them how to protect themselves from HIV/AIDS;</li><li>ii. To empower them to solve their own challenges;</li><li>iii. To guide them in developing their talents;</li></ul></li><li>f) To promote good health habits and primary health care in the community.</li></ul>

The school is not yet registered at the Ministry of Education & Sports (MOES) and/or the Districts Education Office (DEO), because of not yet meeting the requirements for registration.

School Management and the Board of St. Francis Little Bird CDA have started the process of registration this year 2014 on the basis of this School Development Plan.

# St. Francis Little Birds Nursery & Primary School

## 4. MOES/DEO Registration Requirements

The following registration requirements have to be met.

- 4.1. A proper school site plan.
- 4.2. A land title or land agreement.
- 4.3. Structures: class rooms (permanent/semi-permanent; toilets for boys, girls and staff; library; kitchen and store; dormitories, administration offices (HT office/staff room).
- 4.4. Furniture: desks, teachers chairs and tables, office furniture.
- 4.5. Dust bin pit
- 4.6. School enrolment (number of boys and girls)
- 4.7. Play/sports ground
- 4.8. Teaching aids/equipment
- 4.9. Teaching and non-teaching staff and their qualification documents.
- 4.10. Memorandum and Articles of Association (duly signed).
- 4.11. List of members of the Board
- 4.12. Report of the Districts Health Inspector.
- 4.13. Report of the District Inspector of Schools.
- 4.14. Copy of the School Rules & Regulations.
- 4.15. 3 passport size photographs for each of the proprietors.
- 4.16. Recommendation of the local authorities.

## 5. Actual Situation and expected developments 2015-2018

### 5.1. Enrolment

Now in 2014 the number of pupils is 410 (190 non-paying orphans and 220 paying pupils).

Distribution		<u>Total</u>	<u>Girls</u>	<u>Boys</u>
	Primary	325	169	156
	Nursery	<u>85</u>	<u>45</u>	<u>40</u>
		410	214	196

Growth in number of pupils is limited by the availability of structures. Based on 1 stream for all classes the maximum number of pupils up to 2018 is around 500.

### 5.2. Income for operational expenses

Presently income for operational expenses is just coming from school fee payments with in addition some income (mainly in kind) from agricultural activities.

Ushs	School fee paying pupils			Orphans – no fee payments			Missed income for operations
	Number	fee	Amount	Number	fee	Amount	
Nursery	37	40.000	1.480.000	48	0	0	1.920.000
P1	19	47.000	893.000	23	0	0	1.081.000
P2-P4	75	57.000	4.275.000	80	0	0	4.560.000
P5-P6	66	65.000	4.290.000	32	0	0	2.080.000
Boarders (P7)	23	160.000	3.680.000	7	0	0	1.120.000
<b>Total</b>	<b>220</b>		<b>14.618.000</b>	<b>190</b>		<b>0</b>	<b>10.761.000</b>

Supplying education for free to the orphans is causing “missed income” to the amount of more than 10 million Uganda Shillings per term.

Due to the insufficient income for operations the school is not able to recruit qualified teachers.

# St. Francis Little Birds Nursery & Primary School

## 5.3. Staffing

The number of staff presently is 19

	<u>Total</u>	<u>Female</u>	<u>Male</u>
Teaching	15	7	8
Qualified	5	1	4
Untrained	10	6	4
Non-Teaching	<u>5</u>	<u>3</u>	<u>2</u>
	19	9	10

Due to the insufficient income for operations the policy is to hiring unqualified secondary school leavers for the teaching jobs.

With the appointment of the headmaster in 2007 the first qualified Grade 3 teacher came to the school.

In 2014 a qualified teacher for the Baby class was recruited.

In recent years a number of teachers have been put on Grade 3 courses in PTCs, financially supported by donors in Germany and the Netherlands.

Three of them already finished the Grade 3 course and 5 are expected to do so by the end of 2014, bringing the total number of qualified teachers for 2015 to 10.

The number of teaching staff of 15 is sufficient for the expected development 2015-2018.  
For full list of staff members: see Annex 1.

We aim at having 100% qualified teachers as soon as financially feasible, either by putting the remaining 5 untrained ones on study courses or by hiring qualified teachers (Grade 3 or CEC).

It is doubtful whether the existing 5 untrained teachers are willing and/or capable to follow successfully a Grade 3 or CEC course.

The preference of school management is to hiring qualified teachers and to pay them properly.

Educating untrained teachers has a number of serious disadvantages, such as:

- It takes long during which pupils lack training from qualified teachers.
- Management and supervision of “teachers in training” is a difficult job and takes substantial time and expenses, if done properly.
- After graduation school income is still insufficient to pay teachers properly.
- Improper payment results in teachers, who are eager to moving out for better salary.
- Bonding a teacher for 3-5 years after completion of their study paid by donors is no guarantee at all that they really stay for the “bonded period”.

Hiring 5 qualified teachers, however, is only possible, if the issue of “missed income” is solved.

In the next Chapter we summarize the requirements of the Teacher Education Plan 2014.

# St. Francis Little Birds Nursery & Primary School

---

## 6. Summary of Teacher Education Plan 2014

### 6.1. Policy

It is doubtful whether the existing 5 untrained teachers are willing and/or capable to follow successfully a Grade 3 or CEC course. If not, School management and Board of the CDA will select suitable applicants among O-level graduates, with priority for OGs/OBs of St. Francis Little Birds Nursery & Primary School.

In addition, Management will choose 2 or 3 Grade 3 Teachers to start (one at a go) to follow the Grade-5 PTC course (2 years full-time) in order to further improve the quality level of primary education at St. Francis Little Birds Nursery & Primary School. This implies that during 6 years always one (1) Grade-3 teacher will be on training for Grade-5 certification.

We need at least training of

- 2 CEC teachers for Top Class
- 3 Grade-3 teachers for the Primary School.
- 1 Grade-5 teacher out of the existing Grade-3 teachers at the school

In addition, training of other teachers could be required if present qualified ones move out for better salaries. Assuming 2 “drop-outs”, we have to consider starting training of 2 additional teachers every year.

The consequence of “drop-outs” every year will be that permanently a number of children will get primary education of untrained teachers.

### 6.2. Financial Requirements

2 CEC teachers on a 2-year program: 2x UGX 2.400.000/year x 2y (2x € 730/year x 2 teachers = 4x € 730)	= UGX 9.600.000 = ca. € 2.920
3 Grade-3 teachers on a 2-year full-time program x 2.400.000/year x 2 y (3x € 730/year x 2 teachers = 6x € 730)	= UGX 14.400.000 = ca. € 4.380
1 Grade-5 teachers on a 2-year full-time program x 2.800.000/year (2x € 850/year)	= UGX 5.600.000 = ca. € 1.700
2 Grade-3 teachers to replace 2 “drop-outs” every year on a 2-year full-time program x 2.400.000/year x 2 y (2x € 730/year x 2 teachers = 4x € 730)	= UGX 9.600.000 = ca. € 2.920

### 6.3. Budgets

2015:	€ 3.650 + € 850 + replacement of 2 “drop-outs” € 1.460 (1 <sup>st</sup> year)	=	€ 5.960
2016:	€ 3.650 + € 850 + replacement of 2 “drop-outs” € 2.920	=	€ 7.420
2017:	and subsequent years: € 850+replacement of 2 “drop-outs” € 2.920=		€ 3.770

## 9. Scholastic Materials

Before January 2014 the school did not have any scholastic materials.

At the start of this academic year SFLB-NPS got through a donation from sponsors of Tusaidiane Uganda the scholastic materials as listed under “QTY present” in Annex 4. The value of all books supplied was UGX 3 million.

This Annex also surveys the needs for the coming years (“QTY needed”), resulting in financial requirements of around 6 million/year (ca. € 1.800).

School Management has submitted and discussed this School Development Plan to the Board of Directors of St Francis Little Birds Community Development Association.

After thorough discussions and alterations the Board has accepted this Plan as the basis for registration of the school at MOES and the DEO.

The Plan will also serve as the basis for fundraising and annual requests for funding to the donors in Germany and the Netherlands.

The Board is of the opinion that the Board cannot expect commitments from donors for more than one (1) year. Therefore, the Board will annually report about progress in implementation, and will – based on such progress- request for further support based on performance on the ground.
